

PROJECT TITLE

Location of Project

Country:

City:

Site Area (m²):

Task (refer to the brief for full description):

- 1. WHERE:** Pick a site located in Asia, maximum 50,000 square metres. The site may be your current domicile or any place that you are familiar with.
- 2. WHICH:** Choose which scenario/s (either **A. Climate Destruction** or **B. Endings** or **both**) will be addressed based on the selected site:
 - If A), define and detail what is the climate disaster that would affect the selected site context.
 - If B), specify the context of endings.

Based on your choice, explain the ways it affects the site's context (physical/spatial, socioeconomic, etc.)

- 3. WHAT:** is the proposed sustainable architectural solution? These solutions may be new builds or adapt to existing buildings, and can be of any typology.
- 4. HOW:** is the solution to be applied and carried out.
